CONCLUSIONS: The plan set to alter the existing building, located at 575 Blake Street, for use as an exercise facility has been stamped by a registered engineer and will require approval of the building official (a building permit is pending). An exercise facility is an appropriate land use for this parcel of property, per the City's Comprehensive Plan. The change in use imposes no known complications due to size, creation of traffic hazards, parking, or other adverse characteristics that may be injurious to the safety, welfare, comfort, or convenience of the public. A new business fronting SR101 will improve the city both visually and economically.

RECOMMENDATIONS:

Approve the Condition Use Permit for the change-is-use so the city can issue a building permit to allow the building to be remodeled for use as an exercise facility.
